Romatic breaks. Rented all year around.

CASA KAYA

This enchanting villa boasts breathtaking views over the glistening Mediterranean sea as well as the lush greenery of the surrounding countryside. The artful use of natural stone and wood throughout, perfectly complemented by exceptional soft furnishings creates a captivating contrast of traditional Ibiza design with modern-day comforts.

As you enter the sweeping driveway that winds up to the house you will instantly feel at home, and indeed this house offers comfort and luxury throughout. The attention to detail is obvious in every room, and extends to the perfectly maintained outdoor areas where you can immerse yourself in the beauty of the island's nature. The large outdoor pool and terrace offer a space for sun lovers, with plenty of shaded areas for those who seek it.

The true magic of Casa Kaya is the sunset views, and we can think of no better space to watch the sun make its final descent into the sea after yet another magical Ibizan day. Five spacious bedrooms, all ensuite are well-appointed and adorned with tasteful artwork and lighting. Casa Kaya is available for year-round rentals, and is popular for the heated pool and the aforementioned sunsets.

The house is built on a 412m² surface with an 871m² flat plot of land

AREA

Casa Kaya is located just 15 minutes by car from either San Jose or San Antonio. Cala Moli is a secluded beach between the resorts Cala Vadella and Cala Tarida that has the advantage of a beach club with its own pool.

This small yet captivating bay has been declared a 'natural' beach by the San Jose Town Hall which means its beauty isn't spoiled with rows of sun loungers and parasols, and is not often crowded.

This is an excellent beach for snorkelling as the sea bed is full of rocks and coral to explore. The water is exceptionally clear; perfect for spotting marine life, and the caves add an extra dimension for explorers.
